Important Questions	Answers	Why This Matters:
What is the overall deductible ?	Network: \$300/ Individual Non-Network: \$600/ Individual Coinsurance and copayments do not count toward the deductible .	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay.
Are there services covered before you meet your deductible ?	Yes. Network Preventive care , Student Health Center services and In-Network In-Office Physicians visits are covered before you meet your deductible	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No	You do not have to meet specific deductibles for any services.
What is the out-of-pocket limit for this plan ?	Network: \$6,850/Individual, \$13,700/Family; Non-Network: \$12,700/Individual, \$25,400/Family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, the overall family out-of-pocket limit must be met.
What is not included in the out-of-pocket limit ?	Premiums, balance-billed charges, health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit
Will you pay less if you use a network provider ?	Yes. See www.cigna.com or call 1-800-244-6224 for a list of network providers	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No	You can see the specialist you choose without a referral .
