

SmartER CareSM

Because your health counts

It's important to know where to go for SmartER CareSM

You have choices for where you get nonemergency care — what we call SmartER Care options.

Use these places instead of the emergency room (ER). Plus, when you visit in-network providers, you may pay less for care.

Your Doctor's Office or Student Health Center (if available)

Your own doctor's office may be the best place to go for nonemergency care, such as health exams, routine shots, colds, flu and minor injuries. When you're on campus, the Student Health Center is another option for this type of care. Check with your Student Health Center for available services.

Virtual Visits

There's never a convenient time to get sick. But now you have access to a board-certified doctor around the clock for nonemergency health issues. Connect by mobile app, online video or telephone. Register at MDLIVE.com/bcbsil or call **888-676-4204**.¹

Retail Health Clinic

When you can't get to your regular doctor, walk-in clinics—available in many retail stores—can be a lower-cost choice for care. Many stores have a physician assistant or nurse practitioner who can help treat ear infections, rashes, minor cuts and scrapes, allergies and colds.

Urgent Care Center

These facilities can treat you for more serious health issues, such as when you need an X-ray or stitches. You will probably have a lower out-of-pocket cost than at a hospital ER, and you may have a shorter wait.

Emergency Room

Any life-threatening or disabling health problem is a true emergency. You should go to the nearest hospital-based ER or call **911**. When you use the ER **only** for true emergencies, you help keep your out-of-pocket costs lower.

Need help with your SmartER Care options?

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers. They treat most major injuries, except for trauma, but costs may be higher. Unlike urgent care centers, freestanding ERs are often out of network and may charge patients up to 10 times more for the same services.² Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but include EMERGENCY or ER in facility names.
- Are open 24 hours a day, seven days a week.
- Are physically separate from a hospital.
- Are subject to the same ER copay.
- Are staffed by board-certified ER physicians.

To find an urgent care center³ near you, text⁴ **URGENTIL** to **33633**.

Need help deciding where to go for care?

On hand 24 hours a day, seven days a week; bilingual nurses available.

Call the 24/7 Nurseline⁵ at **800-299-0274** for help identifying some options when you or a family member has a health problem or concern.

**Knowing where to go for care can make a big difference in cost and time.
Here's how your options compare:[†]**

	Average Costs	Average Wait Times	Examples of Health Issues	
Your Doctor's Office or Student Health Center (if available) Student Health Center services may vary	\$	18 minutes*	<ul style="list-style-type: none"> Fever and colds Sore throat Minor burns Stomach ache 	<ul style="list-style-type: none"> Ear or sinus pain Physicals Shots Minor allergic reactions
Virtual Visits Convenient and lower cost	\$	20 minutes or less**	<ul style="list-style-type: none"> Allergies Cold and flu Nausea 	<ul style="list-style-type: none"> Sinus infections Asthma Pinkeye
Retail Health Clinic Convenient, lower-cost care in stores and pharmacies	\$	Variable	<ul style="list-style-type: none"> Infections Cold and flu Minor injuries or pain Shots 	<ul style="list-style-type: none"> Flu shots Sore and strep throat Skin problems Allergies
Urgent Care Center Immediate care for issues that are not life threatening	\$\$	16-24 minutes***	<ul style="list-style-type: none"> Migraines or headaches Cuts that need stitches Abdominal pain Sprains or strains 	<ul style="list-style-type: none"> Urinary tract infection Animal bites Back pain
Emergency Room For serious or life-threatening conditions	\$\$\$	35-49 minutes (variable)****	<ul style="list-style-type: none"> Chest pain, stroke Seizures Head or neck injuries Sudden or severe pain 	<ul style="list-style-type: none"> Fainting, dizziness, weakness Uncontrolled bleeding Problem breathing Broken bones

[†] Relative costs described are for independently contracted network providers. Costs for out-of-network providers may be higher.
