

Your family's track to better health begins with a single step

Preventive check-ups and screenings can help find illnesses and medical problems early and improve the health of you and everyone in your family.

Your health plan covers screenings and services with no out-of-pocket costs like copays or coinsurance as long as you visit a doctor in your plan's provider network. This is true even if you haven't met your deductible.

Some examples of preventive care services covered by your plan include general wellness exams each year,

recommended vaccines, and screenings for things like diabetes, cancer or depression. Preventive services are provided for women, men and children of all ages.

For more details on what preventive services are covered at no cost to you, refer to the back of this flier for a listing of services, or see your benefits materials.

Learn more on immunization recommendations and schedules by visiting the Centers for Disease Control and Prevention website at www.cdc.gov/vaccines.

Non-grandfathered health plans are required by the Affordable Care Act to provide coverage for preventive care services without cost-sharing only when the member uses a network provider. You may have to pay all or part of the cost of preventive care if your health plan is grandfathered. To find out if your plan is grandfathered or non-grandfathered, call the Customer Service number listed on your member ID card.
