EXCESS COVERAGE

This insurance is secondary and is designed to cover medical expenses which are not payable by other insurance. Benefits for Medical Expense will be paid only for such expense which is not recoverable from any other insurance policy, service contract or workers’ compensation. **In the event of a covered Injury, the Insured should report it to all other insurance companies who may cover it.** After the other insurance has paid their benefits, all remaining balances should be reported to the claims administrator with copies of the explanation of the other insurer’s payment.

If the Insured has no other insurance, then this insurance will be primary.

Coverage is limited to bodily Injury which occurs after the student registers and his or her insurance under the policy becomes effective. This means that if a student is incapacitated as a result of an accidental bodily Injury at the time he or she registers for school, this policy will not cover that Injury.

This brochure explains the steps that have been taken to protect against the financial burden of medical expenses resulting from accidents sustained by students. Education is expensive, and so are accidents. It is our concern that unexpected medical expenses not jeopardize funds set aside for education. To this end the following program has been adopted.

This Plan applies only to College-related Accidents. The student is automatically insured.

Coverage automatically terminates when a student is no longer enrolled at the College.

WHO IS COVERED AND WHEN

All enrolled students are eligible for and are automatically covered under the plan. This includes day- or evening-division students enrolled in an approved credit and/or non-credit class. Also eligible for coverage are dependent children of properly enrolled and registered students and dependent children of College staff members.

Coverage is provided while: 1) attending class during the hours when College is in session; 2) traveling, other than by motorized vehicle, for regular class sessions directly to or from home and College (no more than one hour before or one hour after class); 3) traveling for regular class sessions directly to or from home and College in transportation furnished or arranged by the College; 4) participating in activities supervised and sponsored by the College; and 5) traveling to, during or from a supervised and sponsored activity as a member of a group in transportation furnished or arranged by the College.

For dependent children coverage is provided only while they are authorized to use and while using the officially designated childcare facility on campus.
