Governing Administrative Guidelines

Alternative Treatment

Occasionally, the Panel Dental Office and/or the member may consider alternative treatment plans. In those instances where the member agrees to an alternative treatment plan rather than the benefit provided by United Concordia, the cost for such treatment will be based upon the following formula:

Provider's Usual Fee of the <u>alternate</u> treatment	<i>less</i>	Provider's Usual Fee of the entitled benefit	<i>plus</i>	Member's Copayment for the entitled benefit	=	FEE CHARGED TO MEMBER
---	-------------	---	-------------	---	---	--------------------------------------

Fixed Prosthetics (Bridges)

Services must be diagnosed and prescribed by the participating provider to be eligible for coverage.

The member is eligible for fixed bridge restoration when:

- there is a posterior one-sided space involving one or two adjacent teeth, and front and back anchor teeth;
- the bridge will replace incisor teeth missing in the upper or lower anterior segments defined as cuspid to cuspid (#6-11 or #22-27);
- anchor teeth and occlusion are clinically healthy, resulting in a favorable prognosis.

The Plan does not cover a fixed bridge when:

- there are missing teeth on both sides of the mouth in the same arch (bridges currently in place are not considered missing teeth unless unserviceable). *
- anterior (front) and posterior (back) spaces (missing teeth) are present in the same arch. In this case, a partial denture is the covered benefit.*
- replacing a serviceable partial denture or fixed bridge;
- the bridge is used to realign misaligned teeth, including diastemas (spaces between teeth);
- the member is under the age of 16 and having permanent teeth replaced;
- one or more anchor teeth is an implant.

*Note: The term "missing teeth" does not include third molars for the purpose of this guideline. In addition, missing teeth do not apply to this guideline if the resultant space is closed to less than 1/2 of the width of a bicuspid.
