

# BSPH Non-Degree & Certificate Student Benefits Overview

As of August 15, 2025

## Eligibility

Non-degree and certificate students and taking at least one in-person course are eligible to self-enroll in JHUs Student Health Insurance Plan (SHIP) each semester. Non-degree and certificate students who are on an active F-1 or J-1 visa will be auto-enrolled in the SHIP.

Dependents (spouse, domestic partner, or children) can be added to coverage during the open enrollment or within 30 days of a Qualified Life Event (QLE) for an additional fee.

Please note: Some programs do not require domestic students to have health insurance. For these students, since health insurance is not mandated, Federal Student Aid (such as loans) cannot be used to pay for the University's health insurance plan. However, students in programs where health insurance is required by the University will be automatically enrolled in the coverage.

## Coverage Start and End Dates

JHU student insurance is divided between four terms for the School of Public Health.

Term 1: August 15 – October 31

Term 3: January 1 – March 31

Term 2: November 1 – December 31

Term 4: April 1 – August 14

Students who are new to the University in the summer may be eligible to enroll into coverage early depending on their program start dates.

Students who graduate or lose eligibility under the student health plan can enroll in Continuation of Coverage for up to three months. Only medical insurance can be extended. Enrollment in continuation coverage starts on August 15, January 1, November 1 or April 1, depending on the term in which the coverage ends. The enrollment period for continuation lasts 30 days and is completed online via the [AHP portal](#).

## Qualified Life Events (QLEs)

When you experience certain personal events, such as getting married or having a baby, you can make changes to your benefits coverage. These are called “qualifying life events,” and they allow you to make a change to your coverage outside of annual enrollment.

Qualifying life events can include:

- Marriage
- Birth or adoption of a child
- Loss of other coverage
- Loss of your spouse/domestic partner’s employment
- Change in employment status (for you or your spouse/domestic partner from full-time to part-time)
- Divorce or termination of domestic partnership
- Death of your spouse/domestic partner or other dependent
- Spouse/partner/children moving to the USA (3 or more months)

If you experience a qualifying life event, you have 30 days following the date of the event to provide documentation of the event, and make a change to your benefits coverage consistent with the event. (If you give birth, for example, you may add the baby to your current JHU benefits plans.)

Generally, the change is retroactive to the date of the life event.

If you need to change your benefits due to a qualifying life event, please login to [jhu.myahpcare.com](https://jhu.myahpcare.com).

Remember, you must make changes no later than 30 days following a qualified life event or wait until the next open enrollment period.
