

General Dentistry Available at JHH

All students and learners, (must have JH badge), have the ability to see a dentist on the JHH East Baltimore campus in JHOC (outpatient center, 601 N. Caroline St, 6th Floor). The clinic accepts Delta Dental and they will provide an estimate to the patient of what the insurance will cover and what you are responsible for before administering services.

Excerpt from website:

“Our dentists and hygienists provide routine dental care and comprehensive evaluations of oral health for children and adults. We treat a variety of dental conditions, helping you regain confidence in your smile and restore the function of your teeth. Our general dentists work closely with oral surgeons, endodontists and other dental specialists to offer well-rounded care for all of your dental needs.”

Conditions they treat:

- Tooth decay/cavities
- Wisdom teeth
- Teeth grinding/clenching (bruxism)
- Tooth sensitivity
- Toothaches and dental emergencies
- Missing teeth (reconstruction for missing teeth)
- Breathing problems due to sleep apnea

To make an appointment: Call 443-997-6467
