

Continuation Coverage

Continuation Coverage of the Graduate Staff medical plan is for those who are no longer eligible for the graduate staff or for the student insurance because they have graduated or are no longer taking classes. To be eligible for continuation coverage, you must have been insured for at least 3 continuous months on the Purdue Graduate Staff medical plan. To continue your plan, you must decide how many months of coverage you want to continue (up to three) and you must submit the entire premium for those months within 30 days after your existing coverage terminates/you lose eligibility.
