

All degree-seeking undergraduate students taking 12 or more credit hours and all F1/J1 international student visa holders will be automatically enrolled in the Student Health Insurance Plan unless proof of comparible coverage is furnished. Domestic seminary students, domestic graduate students, undergraduate students taking less than 12 credit hours, online students, students attending University of Dallas at Distance Learning Centers, or taking home study or corresponding courses are NOT eligible to enroll in this Plan.

A student must actively attend classes for at least the first 31 days after the date for which coverage is purchased unless he or she withdraws from classes due to an Injury or Sickness and the absence is an approved medical leave. Home study, correspondence, Internet classes and television (TV) courses do not fulfill the eligibility requirements that the student must actively attend classes. The Company maintains its right to investigate student status and attendance records to verify that the eligibility requirements have been met. If the Company discovers the eligibility requirements have not been met, its only obligation is refund of premium.

Eligible students who enroll may also insure their dependents. Dependent enrollment must take place at the time of student enrollment (or within 30 days if tuition billed), with the exception of newborn or adopted children or a Qualifying Event.

A newborn child will automatically be covered for the first 31 days following the child's birth. To extend coverage for a newborn child past the 31 day period, the covered student must: 1) enroll the child within 31 days of birth, and 2) pay any required additional premium.
